Subject: TEP surcharge for renewable energy sources

Dear Sirs,

I thought your Commission was to protect Arizona for unjust utility rates. I find this new rate enacted for TEP to be outrageous and uncalled for. You guys should be fired. Why should I pay TEP to do the right thing? Considering there is nothing in place that guarantees that TEP will do what I say and not just use the money as a bonus to its CEO, it was the stupidest decision I've seen yet. Between our federal government not stopping the gouging of consumers by oil companies and to your organization allowing TEP to tax us more, taxpayers are not getting what we elected our government reps for. You guys are no better than the oil companies! I will remember this come next elections. TELL MAYYES WE ARE NEVER NEVER READY FOR A SURCHARGE, MORON!

That's like saying we're ready to just give all our money to the government, god what a stupid comment.
